

## Panel Blinds

# PANEL BLINDS

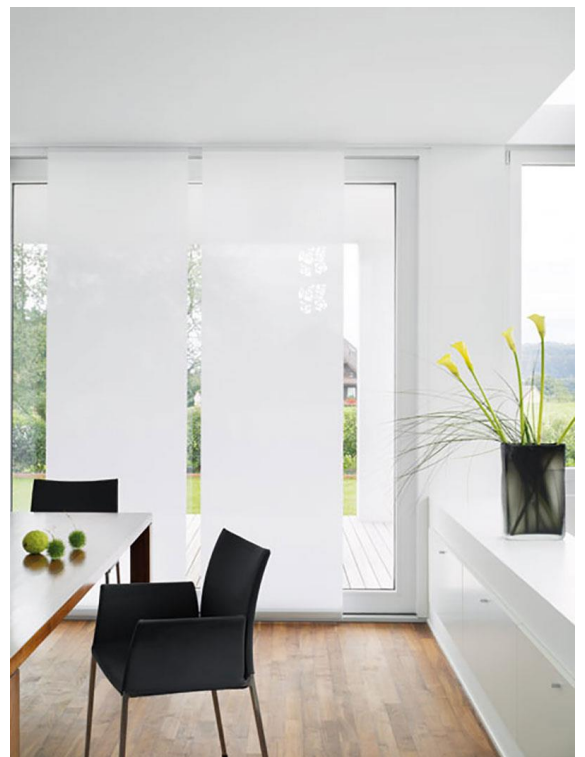

**Panel track blinds**, also known as sliding window panels or panel tracks, offer a simple, versatile and stylish solution for patio doors, sliding glass doors or large picture windows. These blinds cover a large window with much fewer panels than vertical blinds contributing to a much cleaner, uniform appearance. They can even be used as a budget-friendly room divider.

## TYPES OF TRACK PANEL BLINDS

Panel track blinds, also referred to as sliding panels; offer a new and innovative idea for covering extra large windows and sliding glass doors. Hanging panels span your window or stack neatly over each other when opened. These sliding panels also work great as a room divider.
